SECTION 1. IDENTIFICATION

Product name: HP DME Aerosol Propellant
SDS-Identcode: 130000000050

Manufacturer or supplier’s details
Company name of supplier: The Chemours Company FC, LLC
Address: 1007 Market Street
           Wilmington, DE 19899 United States of America (USA)
Telephone: 1-844-773-CHEM (outside the U.S. 1-302-773-1000)
                   Transport emergency: +1-800-424-9300 (outside the U.S. +1-703-527-3887)

Recommended use of the chemical and restrictions on use
Recommended use: Propellant
Restrictions on use: For industrial use only.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with 29 CFR 1910.1200
Flammable gases: Category 1
Gases under pressure: Liquefied gas
Simple Asphyxiant

GHS label elements
Hazard pictograms:

Signal Word: Danger
Hazard Statements: H220 Extremely flammable gas.
H280 Contains gas under pressure; may explode if heated.
May displace oxygen and cause rapid suffocation.

Precautionary Statements: Prevention:
P210 Keep away from heat/sparks/open flames/hot surfaces.
No smoking.
Response:
P377 Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
P381 Eliminate all ignition sources if safe to do so.

Storage:
P410 + P403 Protect from sunlight. Store in a well-ventilated place.

Other hazards
Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing. Misuse or intentional inhalation abuse may cause death without warning symptoms, due to cardiac effects. Rapid evaporation of the product may cause frostbite.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4. FIRST AID MEASURES

General advice: In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.

If inhaled: If inhaled, remove to fresh air. Get medical attention if symptoms occur.

In case of skin contact: Thaw frosted parts with lukewarm water. Do not rub affected area. Get medical attention immediately.

In case of eye contact: Get medical attention immediately.

If swallowed: Ingestion is not considered a potential route of exposure.

Most important symptoms and effects, both acute and delayed: May cause cardiac arrhythmia. Other symptoms potentially related to misuse or inhalation abuse are Cardiac sensitization Anaesthetic effects Light-headedness Dizziness confusion Lack of coordination
Drowsiness
Unconsciousness
Contact with liquid or refrigerated gas can cause cold burns and frostbite.

Protection of first-aiders:
No special precautions are necessary for first aid responders.

Notes to physician:
Treat symptomatically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:
- Water spray
- Alcohol-resistant foam
- Carbon dioxide (CO2)
- Dry chemical

Unsuitable extinguishing media:
None known.

Specific hazards during firefighting:
Vapors may form flammable mixture with air
Exposure to combustion products may be a hazard to health.
If the temperature rises there is danger of the vessels bursting due to the high vapor pressure.

Hazardous combustion products:
Carbon oxides

Specific extinguishing methods:
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Fight fire remotely due to the risk of explosion.
Use water spray to cool unopened containers.
Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
Remove undamaged containers from fire area if it is safe to do so.
Evacuate area.

Special protective equipment for fire-fighters:
Wear self-contained breathing apparatus for firefighting if necessary.
Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
Evacuate personnel to safe areas.
Only trained personnel should re-enter the area.
Remove all sources of ignition.
Avoid skin contact with leaking liquid (danger of frostbite).
Ventilate the area.
Follow safe handling advice and personal protective equipment recommendations.

Environmental precautions:
Prevent further leakage or spillage if safe to do so.
Retain and dispose of contaminated wash water.

Methods and materials for containment and cleaning up:
Ventilate the area.
Non-sparking tools should be used.
Suppress (knock down) gases/vapors/mists with a water spray jet.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures:
Use equipment rated for cylinder pressure. Use a backflow preventative device in piping. Close valve after each use and when empty.

Local/Total ventilation:
Use with local exhaust ventilation. Use only in an area equipped with explosion-proof exhaust ventilation if advised by assessment of the local exposure potential.

Advice on safe handling:
Avoid breathing gas.
Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure assessment.
Keep container tightly closed.
Wear cold insulating gloves/ face shield/ eye protection.
Valve protection caps and valve outlet threaded plugs must remain in place unless container is secured with valve outlet piped to use point.
Use a check valve or trap in the discharge line to prevent hazardous back flow into the cylinder.
Prevent backflow into the gas tank.
Use a pressure reducing regulator when connecting cylinder to lower pressure (<3000 psig) piping or systems.
Close valve after each use and when empty. Do NOT change or force fit connections.
Prevent the intrusion of water into the gas tank.
Never attempt to lift cylinder by its cap.
Do not drag, slide or roll cylinders.
Use a suitable hand truck for cylinder movement.
Keep away from heat and sources of ignition.
Take precautionary measures against static discharges.
Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage:
Cylinders should be stored upright and firmly secured to prevent falling or being knocked over.
Separate full containers from empty containers.
Do not store near combustible materials.
Avoid area where salt or other corrosive materials are present.
Keep in properly labeled containers.
Keep tightly closed.  
Keep in a cool, well-ventilated place.  
Keep away from direct sunlight.  
Store in accordance with the particular national regulations.  
Keep away from heat and sources of ignition.

Materials to avoid:  
Do not store with the following product types:  
Self-reactive substances and mixtures  
Organic peroxides  
Oxidizing agents  
Flammable liquids  
Flammable solids  
Pyrophoric liquids  
Pyrophoric solids  
Self-heating substances and mixtures  
Substances and mixtures which in contact with water emit flammable gases  
Explosives  
Acutely toxic substances and mixtures  
Substances and mixtures with chronic toxicity

Recommended storage temperature:  
< 52 °C

Storage period:  
> 10 y

Further information on storage stability:  
The product has an indefinite shelf life when stored properly.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

<table>
<thead>
<tr>
<th>Ingredients</th>
<th>CAS-No.</th>
<th>Value type (Form of exposure)</th>
<th>Control parameters / Permissible concentration</th>
<th>Basis</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dimethyl ether</td>
<td>115-10-6</td>
<td>TWA</td>
<td>1,000 ppm</td>
<td>US WEEL</td>
</tr>
</tbody>
</table>

Engineering measures:  
Minimize workplace exposure concentrations.  
Use only in an area equipped with explosion-proof exhaust ventilation if advised by assessment of the local exposure potential  
Use with local exhaust ventilation.

Personal protective equipment

Respiratory protection:  
General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn.  
Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air...
supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

Hand protection

Material : Heat resistant gloves

Remarks : Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday. Breakthrough time is not determined for the product. Change gloves often!

Eye protection : Wear the following personal protective equipment: Chemical resistant goggles must be worn. Face-shield

Skin and body protection : Wear the following personal protective equipment: Flame retardant antistatic protective clothing, unless assessment demonstrates that the risk of explosive atmospheres or flash fires is low

Protective measures : Wear cold insulating gloves/ face shield/ eye protection.

Hygiene measures : Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Liquefied gas
Color : colorless
Odor : slight, ether-like
Odor Threshold : No data available
pH : No data available
Melting point/freezing point : -141.5 °C
Initial boiling point and boiling range : -24.8 °C (1,013 hPa)
Flash point : Not applicable
Evaporation rate : Not applicable
**FLAMMABILITY (SOLID, GAS)**
Flammable

**SELF-IGNITION**
The substance or mixture is not classified as pyrophoric.

**UPPER EXPLOSION LIMIT / UPPER FLAMMABILITY LIMIT**
Upper flammability limit: 18.0 % (V)
Method: ASTM E681

**LOWER EXPLOSION LIMIT / LOWER FLAMMABILITY LIMIT**
Lower flammability limit: 3.4 % (V)
Method: ASTM E681

**VAPOR PRESSURE**
5,132.9 hPa (25 °C)

**RELATIVE VAPOR DENSITY**
1.6
(Air = 1.0)

**RELATIVE DENSITY**
1.88 (25 °C)

**DENSITY**
0.667 g/cm³ (20 °C)
(as liquid)

**SOLUBILITY(IES)**
Water solubility: 45.6 g/l (25 °C)

**PARTITION COEFFICIENT: n-OCTANOL/WATER**
Log Pow: -1.15 (25 °C)

**AUTOIGNITION TEMPERATURE**
226 °C

**DECOMPOSITION TEMPERATURE**
No data available

**VISCOITY**
Viscosity, kinematic: Not applicable

**EXPLOSIVE PROPERTIES**
Not explosive

**OXIDIZING PROPERTIES**
The substance or mixture is not classified as oxidizing.

**PARTICLE SIZE**
Not applicable

**SECTION 10. STABILITY AND REACTIVITY**

**REACTION**
Not classified as a reactivity hazard.

**CHEMICAL STABILITY**
Stable if used as directed. Follow precautionary advice and avoid incompatible materials and conditions.

**POSSIBILITY OF HAZARDOUS REACTIONS**
Vapors may form flammable mixture with air
Can react with strong oxidizing agents.
Extremely flammable gas.

**CONDITIONS TO AVOID**
Heat, flames and sparks.
Incompatible materials : Oxidizing agents

Hazardous decomposition products : No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

<table>
<thead>
<tr>
<th>Route</th>
<th>Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inhalation</td>
<td></td>
</tr>
<tr>
<td>Skin contact</td>
<td></td>
</tr>
<tr>
<td>Eye contact</td>
<td></td>
</tr>
</tbody>
</table>

Acute toxicity

Not classified based on available information.

Ingredients:

Dimethyl ether:

Acute inhalation toxicity: LC50 (Rat): 164000 ppm
Exposure time: 4 h
Test atmosphere: gas

No observed adverse effect concentration (Dog): 100000 ppm
Test atmosphere: gas
Symptoms: Cardiac sensitization

Lowest observed adverse effect concentration (Dog): 200000 ppm
Test atmosphere: gas
Symptoms: Cardiac sensitization

Cardiac sensitisation threshold limit (Dog): 376,850 mg/m³
Test atmosphere: gas
Symptoms: Cardiac sensitization

Skin corrosion/irritation

Not classified based on available information.

Ingredients:

Dimethyl ether:

Species: Not tested on animals
Result: No skin irritation

Serious eye damage/eye irritation

Not classified based on available information.

Ingredients:

Dimethyl ether:

Species: Not tested on animals
Result: No eye irritation
Respiratory or skin sensitization

Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Ingredients:

Dimethyl ether:

Routes of exposure: Skin contact
Species: Not tested on animals
Result: negative

Germ cell mutagenicity
Not classified based on available information.

Ingredients:

Dimethyl ether:

Germ cell mutagenicity - Assessment: Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity
Not classified based on available information.

Ingredients:

Dimethyl ether:

Carcinogenicity - Assessment: Weight of evidence does not support classification as a carcinogen

IARC
No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No component of this product present at levels greater than or equal to 0.1% is on OSHA’s list of regulated carcinogens.

NTP
No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity
Not classified based on available information.

Ingredients:

Dimethyl ether:

Reproductive toxicity - Assessment: Weight of evidence does not support classification for reproductive toxicity
STOT-single exposure
Not classified based on available information.

STOT-repeated exposure
Not classified based on available information.

Ingredients:

- **Dimethyl ether:**
  - Assessment: No significant health effects observed in animals at concentrations of 250 ppmV/6h/d or less.

Repeated dose toxicity

Ingredients:

- **Dimethyl ether:**
  - **Species:** Rat
  - **NOAEL:** 19740 ppm
  - **LOAEL:** >19740 ppm
  - **Application Route:** inhalation (gas)
  - **Exposure time:** 90 d
  - **Method:** OECD Test Guideline 413
  - **Remarks:** No significant adverse effects were reported

Aspiration toxicity
Not classified based on available information.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Ingredients:

- **Dimethyl ether:**
  - **Toxicity to fish:** LC50 (Poecilia reticulata (guppy)): > 4,000 mg/l
    - Exposure time: 96 h
  - **Toxicity to daphnia and other aquatic invertebrates:** EC50 (Daphnia): > 4,000 mg/l
    - Exposure time: 48 h
    - LC50 (Daphnia): 755.549 mg/l
    - Exposure time: 48 h
  - **Toxicity to algae:** EC50 (Pseudokirchneriella subcapitata (green algae)):
    - 154.917 mg/l
    - Exposure time: 96 h

Persistence and degradability

Ingredients:

- **Dimethyl ether:**
  - **Biodegradability:** Result: Not inherently biodegradable.
Bioaccumulative potential

Ingredients:

Dimethyl ether:
Partition coefficient: n-octanol/water : log Pow: 0.07

Mobility in soil
No data available

Other adverse effects

Product:
Results of PBT and vPvB assessment : This substance is not considered to be persistent, bioaccumulating and toxic (PBT). This substance is not considered to be very persistent and very bioaccumulating (vPvB).

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues : Dispose of in accordance with local regulations.
Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal. Empty pressure vessels should be returned to the supplier. If not otherwise specified: Dispose of as unused product.

SECTION 14. TRANSPORT INFORMATION

International Regulations

UNRTDG
UN number : UN 1033
Proper shipping name : DIMETHYL ETHER
Class : 2.1
Packing group : Not assigned by regulation
Labels :

IATA-DGR
UN/ID No. : UN 1033
Proper shipping name : Dimethyl ether
Class : 2.1
Packing group : Not assigned by regulation
Labels :
Packing instruction (cargo aircraft) : 200
Packing instruction (passenger aircraft) : Not permitted for transport
IMDG-Code
UN number : UN 1033
Proper shipping name: DIMETHYL ETHER

Class: 2.1
Packing group: Not assigned by regulation
Labels: FLAMMABLE GAS
EmS Code: F-D, S-U
Marine pollutant: no

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

国内规定

49 CFR
UN/ID/NA number: UN 1033
Proper shipping name: Dimethyl ether

Class: 2.1
Packing group: Not assigned by regulation
Labels: FLAMMABLE GAS
ERG Code: 115
Marine pollutant: no

WARNING: This product can expose you to chemicals including Methanol, which is/are known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

SECTION 16. OTHER INFORMATION

Further information

NFPA:  
- Health: 0  
- Flammability: 4  
- Instability: 3  
Special hazard.

HMIS® IV:
- HEALTH: 0  
- FLAMMABILITY: 4  
- PHYSICAL HAZARD: 3  

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. The """" represents a chronic hazard, while the "/" represents the absence of a chronic hazard.

SAFETY DATA SHEET

HP DME Aerosol Propellant

Sources of key data used to compile the Material Safety Data Sheet:

Revision Date: 11/22/2017

Items where changes have been made to the previous version are highlighted in the body of this document by two vertical lines.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user’s end product, if applicable.
