SAFETY DATA SHEET

Formacel™ Z2 Foam Expansion Agent

SECTION 1. IDENTIFICATION

Product name : Formacel™ Z2 Foam Expansion Agent

Manufacturer or supplier’s details

Company name of supplier : The Chemours Company FC, LLC

Address : 1007 Market Street
           Wilmington, DE 19899 United States of America (USA)

Telephone : 1-844-773-CHEM (outside the U.S. 1-302-773-1000)

Recommended use of the chemical and restrictions on use

Recommended use : Foam expansion agent

Restrictions on use : For professional users only.

SECTION 2. HAZARDS IDENTIFICATION

GHS classification in accordance with 29 CFR 1910.1200

Flammable gases : Category 1

Gases under pressure : Liquefied gas

Simple Asphyxiant

GHS label elements

Hazard pictograms : 

Signal Word : Danger

Hazard Statements : H220 Extremely flammable gas.
                   H280 Contains gas under pressure; may explode if heated.
                   May displace oxygen and cause rapid suffocation.

Precautionary Statements : 

Prevention: 
P210 Keep away from heat/sparks/open flames/hot surfaces.
No smoking.

Response: 
P377 Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
P381 Eliminate all ignition sources if safe to do so.

Storage:
P410 + P403 Protect from sunlight. Store in a well-ventilated place.

Other hazards
Misuse or intentional inhalation abuse may cause death without warning symptoms, due to cardiac effects.
Rapid evaporation of the product may cause frostbite.
Vapors are heavier than air and can cause suffocation by reducing oxygen available for breathing.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

SECTION 4. FIRST AID MEASURES

General advice: In the case of accident or if you feel unwell, seek medical advice immediately. When symptoms persist or in all cases of doubt seek medical advice.

If inhaled: If inhaled, remove to fresh air. Get medical attention if symptoms occur.

In case of skin contact: Thaw frosted parts with lukewarm water. Do not rub affected area. Get medical attention immediately.

In case of eye contact: Get medical attention immediately.

If swallowed: Ingestion is not considered a potential route of exposure.

Most important symptoms and effects, both acute and delayed: Contact with liquid or refrigerated gas can cause cold burns and frostbite. May cause cardiac arrhythmia. Other symptoms potentially related to misuse or inhalation abuse are Cardiac sensitization Anaesthetic effects Light-headedness Dizziness confusion Lack of coordination
Drowsiness
Unconsciousness

Protection of first-aiders: No special precautions are necessary for first aid responders.

Notes to physician: Treat symptomatically and supportively.

SECTION 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:
- Water spray
- Alcohol-resistant foam
- Carbon dioxide (CO2)
- Dry chemical

Unsuitable extinguishing media: None known.

Specific hazards during fire fighting:
- Vapors may form flammable mixture with air
- Exposure to combustion products may be a hazard to health.
- If the temperature rises there is danger of the vessels bursting due to the high vapor pressure.

Hazardous combustion products:
- Hydrogen fluoride
- Carbonyl fluoride
- Carbon oxides

Specific extinguishing methods:
- Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Fight fire remotely due to the risk of explosion.
- Use water spray to cool unopened containers.
- Leaking gas fire: Do not extinguish, unless leak can be stopped safely.
- Remove undamaged containers from fire area if it is safe to do so.
- Evacuate area.

Special protective equipment for fire-fighters:
- Wear self-contained breathing apparatus for firefighting if necessary.
- Use personal protective equipment.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:
- Evacuate personnel to safe areas.
- Only trained personnel should re-enter the area.
- Remove all sources of ignition.
- Avoid skin contact with leaking liquid (danger of frostbite).
- Ventilate the area.
- Follow safe handling advice and personal protective equipment recommendations.

Environmental precautions:
- Prevent further leakage or spillage if safe to do so.
- Retain and dispose of contaminated wash water.
Methods and materials for containment and cleaning up:
Ventilate the area.
Non-sparking tools should be used.
Suppress (knock down) gases/vapors/mists with a water spray jet.
Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable.
Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures:
Use equipment rated for cylinder pressure. Use a backflow preventative device in piping. Close valve after each use and when empty.

Local/Total ventilation:
Use with local exhaust ventilation.
Use only in an area equipped with explosion proof exhaust ventilation.

Advice on safe handling:
Avoid breathing gas.
Handle in accordance with good industrial hygiene and safety practice.
Keep container tightly closed.
Wear cold insulating gloves/face shield/eye protection.
Valve protection caps and valve outlet threaded plugs must remain in place unless container is secured with valve outlet piped to use point.
Use a check valve or trap in the discharge line to prevent hazardous back flow into the cylinder.
Prevent backflow into the gas tank.
Use a pressure reducing regulator when connecting cylinder to lower pressure (<3000 psig) piping or systems.
Close valve after each use and when empty. Do NOT change or force fit connections.
Prevent the intrusion of water into the gas tank.
Never attempt to lift cylinder by its cap.
Do not drag, slide or roll cylinders.
Use a suitable hand truck for cylinder movement.
Keep away from heat and sources of ignition.
Take precautionary measures against static discharges.
Take care to prevent spills, waste and minimize release to the environment.

Conditions for safe storage:
Cylinders should be stored upright and firmly secured to prevent falling or being knocked over.
Separate full containers from empty containers.
Do not store near combustible materials.
Avoid area where salt or other corrosive materials are present.
Keep in properly labeled containers.
Keep tightly closed.
Keep in a cool, well-ventilated place.
Keep away from direct sunlight.
Store in accordance with the particular national regulations. Keep away from heat and sources of ignition.

Materials to avoid: Do not store with the following product types:
- Self-reactive substances and mixtures
- Organic peroxides
- Oxidizing agents
- Flammable liquids
- Flammable solids
- Pyrophoric liquids
- Pyrophoric solids
- Self-heating substances and mixtures
- Substances and mixtures which in contact with water emit flammable gases
- Explosives
- Acutely toxic substances and mixtures
- Substances and mixtures with chronic toxicity

Recommended storage temperature: < 52 °C

Storage period: > 10 y

Further information on storage stability: The product has an indefinite shelf life when stored properly.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Ingredients with workplace control parameters

<table>
<thead>
<tr>
<th>Ingredients</th>
<th>CAS-No.</th>
<th>Value type (Form of exposure)</th>
<th>Control parameters / Permissible concentration</th>
<th>Basis</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,1-Difluoroethane</td>
<td>75-37-6</td>
<td>TWA</td>
<td>1,000 ppm</td>
<td>US WEEL</td>
</tr>
</tbody>
</table>

Engineering measures: Minimize workplace exposure concentrations. Use only in an area equipped with explosion proof exhaust ventilation. Use with local exhaust ventilation.

Personal protective equipment

Respiratory protection: General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.
Hand protection

Material: Low temperature resistant gloves

Remarks: Choose gloves to protect hands against chemicals depending on the concentration specific to place of work. For special applications, we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacturer. Wash hands before breaks and at the end of workday. Breakthrough time is not determined for the product. Change gloves often!

Eye protection: Wear the following personal protective equipment: Chemical resistant goggles must be worn. Face-shield

Skin and body protection: Wear the following personal protective equipment: Flame retardant antistatic protective clothing.

Protective measures: Wear cold insulating gloves/ face shield/ eye protection.

Hygiene measures: Ensure that eye flushing systems and safety showers are located close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Liquefied gas
Color: clear, colorless
Odor: slight, ether-like
Odor Threshold: No data available
pH: No data available
Melting point/freezing point: -117 °C
Initial boiling point and boiling range: -24.7 °C (1,013 hPa)
Flash point: Not applicable
Evaporation rate: Not applicable
Flammability (solid, gas): Flammable
Self-ignition: The substance or mixture is not classified as pyrophoric.
Upper explosion limit / Upper: Upper flammability limit
Formacel™ Z2 Foam Expansion Agent

flammbility limit 16.9 % (V) Method: ASTM E681

Lower explosion limit / Lower flammability limit:
  Lower flammability limit 3.9 % (V) Method: ASTM E681

Vapor pressure: 5,146.24 hPa (25 °C)

Relative vapor density: 2.4 (Air = 1.0)

Density: 0.90 g/cm³ (25 °C) (as liquid)

Solubility: Water solubility 0.2 g/l (25 °C)

Partition coefficient: n-octanol/water log Pow: 0.053 (25 °C)

Autoignition temperature: 440 °C

Decomposition temperature: No data available

Viscosity
  Viscosity, kinematic: Not applicable

Explosive properties: Not explosive

Oxidizing properties: The substance or mixture is not classified as oxidizing.

Particle size: Not applicable

SECTION 10. STABILITY AND REACTIVITY

Reactivity: Not classified as a reactivity hazard.

Chemical stability: Stable if used as directed. Follow precautionary advice and avoid incompatible materials and conditions.

Possibility of hazardous reactions:
  Vapors may form flammable mixture with air
  Can react with strong oxidizing agents.
  Extremely flammable gas.

Conditions to avoid: Heat, flames and sparks.

Incompatible materials: Oxidizing agents

Hazardous decomposition products: No hazardous decomposition products are known.
SECTION 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Inhalation
Skin contact
Eye contact

Acute toxicity
Not classified based on available information.

Ingredients:

1,1-Difluoroethane:

Acute inhalation toxicity: LC50 (Rat): > 437500 ppm
Exposure time: 4 h
Test atmosphere: gas

No observed adverse effect concentration (Dog): 50000 ppm
Test atmosphere: gas
Symptoms: Cardiac sensitization

Lowest observed adverse effect concentration (Dog): 150000 ppm
Test atmosphere: gas
Symptoms: Cardiac sensitization

Cardiac sensitisation threshold limit (Dog): 405,000 mg/m³
Test atmosphere: gas
Symptoms: Cardiac sensitization

Skin corrosion/irritation
Not classified based on available information.

Serious eye damage/eye irritation
Not classified based on available information.

Respiratory or skin sensitization

Skin sensitization
Not classified based on available information.

Respiratory sensitization
Not classified based on available information.

Ingredients:

1,1-Difluoroethane:

Species: Rat
Result: negative

Germ cell mutagenicity
Not classified based on available information.
Ingredients:

1,1-Difluoroethane:

Germ cell mutagenicity - Assessment
   - Weight of evidence does not support classification as a germ cell mutagen.

Carcinogenicity
   - Not classified based on available information.

Ingredients:

1,1-Difluoroethane:

Carcinogenicity - Assessment
   - Weight of evidence does not support classification as a carcinogen

IARC
   - No ingredient of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
   - No component of this product present at levels greater than or equal to 0.1% is on OSHA’s list of regulated carcinogens.

NTP
   - No ingredient of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

Reproductive toxicity
   - Not classified based on available information.

Ingredients:

1,1-Difluoroethane:

Reproductive toxicity - Assessment
   - Weight of evidence does not support classification for reproductive toxicity

STOT - single exposure
   - Not classified based on available information.

STOT - repeated exposure
   - Not classified based on available information.

Ingredients:

1,1-Difluoroethane:

Assessment: No significant health effects observed in animals at concentrations of 1 mg/l/6h/d or less.

Repeated dose toxicity

Ingredients:

1,1-Difluoroethane:

Species: Rat
   - NOAEL: 67.485 mg/l
Application Route: inhalation (vapor)
Exposure time: 104 Weeks
Remarks: No significant adverse effects were reported

Aspiration toxicity
Not classified based on available information.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Ingredients:

**1,1-Difluoroethane:**
- Toxicity to fish: LC50 (Fish): 295.78 mg/l
  Exposure time: 96 h
- Toxicity to daphnia and other aquatic invertebrates: EC50 (Daphnia): 146.7 mg/l
  Exposure time: 48 h
- Toxicity to algae: EC50 (algae): 47.76 mg/l
  Exposure time: 96 h

Ecotoxicology Assessment
- Acute aquatic toxicity: Harmful to aquatic life.
- Chronic aquatic toxicity: This product has no known ecotoxicological effects.

Persistence and degradability

Ingredients:

**1,1-Difluoroethane:**
- Biodegradability: Result: Not readily biodegradable.

Bioaccumulative potential

Ingredients:

**1,1-Difluoroethane:**
- Partition coefficient: n-octanol/water: log Pow: -0.125

Mobility in soil
No data available

Other adverse effects

Product:
- Results of PBT and vPvB assessment: This substance is not considered to be persistent, bioaccumulating and toxic (PBT). This substance is not considered to be very persistent and very bioaccumulating (vPvB).
SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
- Waste from residues: Dispose of in accordance with local regulations.
- Contaminated packaging: Empty containers should be taken to an approved waste handling site for recycling or disposal. Empty pressure vessels should be returned to the supplier. If not otherwise specified: Dispose of as unused product.

SECTION 14. TRANSPORT INFORMATION

International Regulations

UNRTDG
- UN number: UN 1030
- Proper shipping name: 1,1-DIFLUOROETHANE
- Class: 2.1
- Packing group: Not assigned by regulation
- Labels: 2.1

IATA-DGR
- UN/ID No.: UN 1030
- Proper shipping name: 1,1-Difluoroethane
- Class: 2.1
- Packing group: Not assigned by regulation
- Labels: Flammable Gas
- Packing instruction (cargo aircraft): 200
- Packing instruction (passenger aircraft): Not permitted for transport

IMDG-Code
- UN number: UN 1030
- Proper shipping name: 1,1-DIFLUOROETHANE
- Class: 2.1
- Packing group: Not assigned by regulation
- Labels: 2.1
- EmS Code: F-D, S-U
- Marine pollutant: no

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable for product as supplied.

Domestic regulation

49 CFR
- UN/ID/NA number: UN 1030
- Proper shipping name: 1,1-Difluoroethane
- Class: 2.1
- Packing group: Not assigned by regulation
SECTION 15. REGULATORY INFORMATION

EPCRA - Emergency Planning and Community Right-to-Know

CERCLA Reportable Quantity
This material does not contain any components with a CERCLA RQ.

SARA 304 Extremely Hazardous Substances Reportable Quantity
This material does not contain any components with a section 304 EHS RQ.

SARA 302 Extremely Hazardous Substances Threshold Planning Quantity
This material does not contain any components with a section 302 EHS TPQ.

SARA 311/312 Hazards
- Flammable (gases, aerosols, liquids, or solids)
- Gases under pressure
- Simple Asphyxiant

SARA 313
This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

US State Regulations

Pennsylvania Right To Know
- 1,1-Difluoroethane 75-37-6

California Prop. 65
This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.
